## MOSAİK DESIGN

If you're looking for a design team that will take you through the entire design process, start to finish, choose Mosaik Design, a full-service design and build remodeling company specializing in high-quality residential remodeling, cabinetry and interior design.

Owner Arlene Lord says the Mosaik team prides itself on working holistically on remodels, from beginning to end, which allows them to incorporate every possible detail into the finished product, from room layouts to accessories. "Our approach means the design ends up being more cohesive," Lord says.

Three co-owners make up Mosaik's tight-knit team: designers Arlene Lord and Erin

Davis, and project manager Scott Jaworski. Thanks to eight years of working together, the trio has plenty of experience making projects proceed smoothly and on time.

"We each bring a separate skill and perspective to the table," Davis says, but that doesn't mean clients aren't involved. "From the start, we make sure you know we're all in this together trying to achieve the project that you've been dreaming of," she says. "We want to integrate everybody."

Lord and Davis consistently create clean, simple, elegant designs "without unnecessary, goopy details," Lord says. The design duo has plenty of experience weaving their clean lines and fresh approach into any style of home, from craftsmen and French country to mid-century modern.

While Mosaik Design has a showroom available by appointment, they're also happy to visit a home for an initial walk-through.

Mosaik Design continues to take a fresh, holistic approach to their designs while providing stellar service through teamwork and enthusiasm.
